

Everyday Current Account

The Everyday Current Account is designed for personal day-to-day banking.

The account includes access to mobile banking, online banking, bank transfers, direct debits, and a debit card.

There is no monthly administration fee when the customer receives at least 1,500 EUR into the account during the calendar month.

If the monthly incoming-payment condition is not met, an administration fee of 5 EUR is charged for that month.

Cash withdrawals from the bank's own ATM network are free.

Withdrawals from another bank's ATM may be subject to a fee charged by the bank or by the ATM operator.

Customers must complete identity verification before opening the account.
